PROFILE

Highly motivated and results-oriented IT undergraduate with a strong foundation in Java, Python, Data Structures & Algorithms. Eager to contribute to a dynamic team and learn from experienced professionals while developing innovative solutions. Seeking an opportunity to gain practical experience and apply academic knowledge in a challenging and rewarding environment.

WORK EXPERIENCE

Software Engineer Intern | Amirda (Pvt) Ltd

Jan 2024 - June 2024

- Developed full-stack applications using React.js, Express.js, Node.js, and MySQL, including an e-commerce platform with product management and invoicing features.
- Built a Career Guidance Website with a quiz system and an admin dashboard using HTML, CSS, Bootstrap, JavaScript, PHP and MySQL.
- Engineered a Hospital Management System (HMS) using the MERN stack, integrating APIs for booking and patient management.
- Designed user-friendly interfaces with Figma and Adobe XD, enhancing usability.
- Managed tasks using Jira and collaborated via GitHub for version control.
- Participated in leadership workshops to strengthen teamwork and communication skills.
- Conducted technical workshops for NVQ-level students.

TECHNICAL SKILLS

- Programming Languages : Java, Python, C
- Web Development : HTML, CSS, JavaScript, PHP, Bootstrap, Tailwind CSS
- Frameworks / Libraries : React, Node.js, Express.js, Spring Boot, Flask
- Databases : MySQL, MsSQL, MongoDB
- API Platforms : Postman
- Version Control : GitHub
- UI/UX Design : Figma, Adobe XD, Canva, Photoshop
- Content Management Systems : WordPress
- Project Management & Documentation : Jira, Trello
- Testing Tools : Selenium, Serenity, Cucumber, Postman (API testing)
- Development Methodologies : Agile, Waterfall, Scrum, Rapid Application Development (RAD)

EDUCATION

B.Sc. (Hons.) in Information Technology

University of Moratuwa | June 2021 - Expected June 2025

CGPA : 3.61

G.C.E. Advanced Level (Physical Science Stream)

BT/BC/Kattankudy Central College (NS) | 2017 - 2019

Results : ABC | Z- Score : 1.7306

G.C.E. Ordinary Level

BT/BC/Al Ameen Vidyalaya (NS) | 2006 - 2016

Results : 9A's

PROJECTS

District Court Case Management System (DCCMS)

Role: Fullstack Developer

Technologies: HTML, CSS, JavaScript, Python, MySQL

[GitHub Repository](#)

- Developed a web-based District Court Management System (DCCMS) to manage user roles, court cases, registration, case assignment, and reports.
- Implemented user management, selecting lawyers for the case, document uploads, case scheduling, notifications, and case history retrieval.
- Created an admin dashboard with statistical analysis, data validation, error handling, and continuous maintenance.

Customer Employee Management System (CEM)

Role: Fullstack Developer

Technologies: React.js, Spring Boot, MySQL

[GitHub Repository - Frontend](#) | [GitHub Repository - Backend](#)

- Developed a Customer and Employee Management (CEM) system for CRM and HRM activities, integrating leave management, invoice generation, product and customer management, and employee tracking.
- Built and optimized CRUD functionalities for employee leave requests and invoicing processes, integrating React.js for dynamic frontend development.
- Designed and implemented RESTful APIs using Spring Boot to ensure efficient data handling and communication between frontend and backend.

Career Guidance System

Role: Fullstack Developer

Technologies: HTML, CSS, JavaScript, PHP, MySQL

[GitHub Repository](#)

- Developed a Career Guidance Website to help users assess career options through an interactive quiz system.
- Built dynamic results that recommend career paths based on user responses using JavaScript for interactivity and PHP for backend processing.
- Implemented user registration, data storage in MySQL, and an admin dashboard to track user interactions and manage quiz results.

BuyIT - Microservice-based E-commerce Project

Role: Backend Developer

Technologies: Spring Boot, Docker, Spring Security, Spring Cloud Gateway, Netflix Eureka

[GitHub Repository](#)

- Developed backend services for key e-commerce modules including Inventory, Order, and Customer Management using Spring Boot.
- Implemented Spring Security for user authentication and Docker for containerizing microservices, ensuring scalability and secure deployment.
- Utilized Spring Cloud Gateway and Netflix Eureka for efficient service communication and routing between microservices.

CERTIFICATIONS

OOP in Java Java Intermediate Web Designing UI/UX Designing JavaScript

SOFT SKILLS

Time Management Problem Solving Communication Analytical Thinking Team Work

EXTRA WORKS

Batch Representative (Majlis_Ul_Islam, UoM) Mathematics & IT Tutor Member of Rotaract Mora
